Spoilers - "Transformers 4" On Blu-Ray Limited andAnybody who wonders why Donald Trump should be impeached needs look no further than to the worst vice president in American history. Joe Biden is rarely awake in the middle of the night, but if so he would notice that the Republican Party of today is even more heinous than the one he ran in back in 1976. At least then, the GOP was the party of Reagan, not Trump, and it was a party that did not threaten itself with its own craziness. With the election of Trump, the Republican Party has become a party of wingnuts and conspiracy theorists. Back then, Barry Goldwater was not the first among the lunatic fringe that has now gained control of the party. In the late 1950s and early 1960s in Alabama, Jim Folsom, Jimmy Kilmer Smith, Robert Ingersoll, George Wallace, and Arthur Flynt declared their intention to run on a single ticket for all office in the state. One of their most venomous critics was the late Jesse Helms, who showed up at the 1960 Republican State Convention to denounce them as socialists. The entire establishment turned on Folsom, who at the end of his career was teaching at Bard College, and on his goon squad of authoritarians, who landed in prison for tax fraud. But the party and its supporters never gave up on Folsom. He served eight terms as governor of Alabama, and two terms in the U.S. Senate. He was, at the time of his retirement, the longest-serving Republican governor in the nation. The party abandoned him, but in the mid-1990s, word went out that if they got behind Bob Riley for governor he would not be so malign to white people, whom, remember, were the base. The party also abandoned Wallace, who finished third to Riley and Democrat Lurleen Burns. In 2008, the party promoted George W. Bush to the nomination, hoping that they could mount a campaign on his name and assume he would remain quiet. He proved to be as deceitful as they thought. He was a Republican, of course, and even as president he was perfectly happy to do the bidding of the party of Willie Horton and Clarence Thomas. But he was also an ideologue, and the Republican faction that controls the party today is dominated by the wing of the Republican Party that gave us eight years of George W. Bush.
